

Press Release

A “Space Night” for Greeks and Foreign Visitors in Santorini

We invite you to a “Space Night” with two public talks, one in English and one in Greek, at the Bellonio Cultural Centre (Fira) on Monday July 1st. The event is organized on the occasion of an International Space Science Workshop, taking place in Santorini between June 30 and July 3, which will attract dozens of scientists from around the world.

The first public talk with title **«Space Weather, Space Storms, Aurorae - and things that go bump in the night!»** will be delivered by Dr. Ian Mann, Professor at the University of Alberta, Canada.

The second public talk with title **«Electromagnetic waves, Electrons and “Bad Weather” in Space»** will be delivered by Dr. Ioannis Daglis, Professor at the University of Athens, Greece.

The Space Night is being held as part of the public outreach activities of the European collaborative research project MAARBLE (Monitoring, Analyzing and Assessing Radiation Belt Loss and Energization), which has received funding from the European Community's Seventh Framework Programme (FP7–SPACE–2010–1) under grant agreement n. 284520.

Time: 19:00 (Talk in English) and 20:00 (Talk in Greek)
Bellonio Cultural Centre, Fira
Free Entrance
